Spoke to Ford last night. He is going gang busters on truckers today. Using Emergency Order—fines, seizing trucks, arrests, suspension of licences.. he is very hot to hammer them at a presser tomorrow at 1030am. He will introduce legislation to make sure this can't happen again—and wants us to work on plan together to secure border/critical infrastructure going forward. He wants us to collaborate closely on this plan to stop other choke points. He will then do a presser on Monday to diminish public health measures—but tomorrow is hard on enforcing against blockades. He said OPP are ready to lead also (believe that when I see it?!) Dom
Is his presser not today?
Yes, sorry. In 15 mins
